

Message From the
Course Director

I very much look forward to welcoming you to the 12th Laryngeal and Phonosurgery Workshop organised by the Otorhinolaryngology Department of Universiti Kebangsaan Malaysia Medical Centre. The 3-days course will enable participants to learn and understand more about laryngeal disorders and the surgical treatments as well as the upper airway obstruction caused by the bilateral vocal fold immobility. Distinguished speakers from local who are well trained will share their knowledge and experience. The course incorporates lecture and operative sessions,

demonstration of office based injection laryngoplasty and laryngeal cadaveric hands-on to learn and practise various surgical treatments for laryngeal disorders. Participants also would have better understanding of the anatomy of the larynx and the course of the recurrent laryngeal nerve by dissecting the laryngeal cadaver. At the end of the course, participants would have better perspectives in assessing and managing patients with laryngeal disorders.

laryngeal nerve by dissecting the laryngeal cadaver. At the end of the course, participants would have better perspectives in assessing and managing patients with laryngeal disorders.

Professor Dr Marina Mat Baki

Workshop

Otorhinolaryngology
Department, UKMMC

Date:

28th (Wednesday) February, 1st (Thursday) and 2nd (Friday) March 2018

Venue:

DKI, Preclinical Block (28th and 1st) and Wet Lab ORL-HNS dept (2nd)

Wednesday	28 th February 2018	Theory
0730	Registration	
0800	Opening address by Head of Department	Prof Dr Asma Abdullah
	Welcome address by Course Advisor	Prof Dato' Dr. Abdullah Sani
0815	Anatomy and Physiology of Phonation	PM Dr Mawaddah Azman
0845	Basic protocol of voice assessment	Prof Dr Marina Mat Baki
0915	Treatment of Unilateral Vocal Fold Immobility	Prof Dr Marina Mat Baki
0945	Tea Break	
1000	External medialization	Prof Dato Dr Abdullah Sani
1030	Internal medialization	Dr Masaany Mansor
1100	Arytenoid repositioning	Dr Nik Fariza Nik Hussain
1130	Non Selective Laryngeal Reinnervation	Prof Dr Marina Mat Baki
1200	Lunch talk I :	
1245	Group photography session and Lunch break	
1400	Spasmodic Dysphonia, Vocal Tremor and Muscle Tension Dysphonia	Prof Dato Dr Abdullah Sani
1445	Bilateral Vocal Fold Immobility	Prof Dato Dr Abdullah Sani
1515	Benign Vocal Cord Surgery and Vocal Cord Scar	Dr Masaany Mansor
1615	Endolaryngeal CO2 Laser for early Glottic Cancer	PM Dr Mawaddah Azman
1645	Tea break	
1700	Final discussion and Award of Certificates	

Thursday	1 st March 2018	Live Surgery
0830	Introduction to operative setting in laryngeal surgery	
0900	Introduction to anaesthesia in laryngeal surgery	
0930	Case demonstration 1	
1015	Case demonstration 2	
1130	Case demonstration 3: Endolaryngeal LASER and Balloon dilatation	
1200	Lunch talk II:	
1400	Office laryngeal injection demonstration (3 cases)	
1700	Tea break and adjourn	

Friday	2 nd March 2018	Cadaveric Dissection
0800	Introduction to cadaveric dissection of the larynx	
0830	Anatomy: identification of important landmarks and recurrent laryngeal	
0900	External medialization: Thyroplasty and arytenoids adduction	
1000	Coffee break	
	Excision of cyst and polyp.	
1200	Lunch break	
1400	CO2 Laser cordectomy demonstration	
1700	Tea break and adjourn
