

PERAK ENT TEACHING PROGRAMME 2017

Since its inception in 2011, the Perak ENT Teaching Programme has grown from strength to strength. Our trainees have successfully passed their MRCS/MRCS(ENT) and postgraduate ENT examinations. This year we have designed a comprehensive programme to cover all relevant aspects of higher surgical training in ENT. For the first time in Malaysia, collaborative training and courses will be conducted jointly with the Royal Colleges of Surgeons, United Kingdom. Programme details will be made available through the hospital website www.hrpb.moh.gov.my and www.msohns.com/

Dr Philip Rajan
Head of Department & Consultant
Otorhinolaryngologist,
Hospital Raja Permaisuri Bainun, Ipoh.
